

**CONFIDENTIAL**

Journal - Office of Legislative Counsel  
Tuesday - 28 March 1967

Page 2

25X1 7. [ ] At his request, met with Mr. David Glick, Assistant to Representative William A. Barrett (D., Pa.) and Counsel, Subcommittee on Housing, House Banking and Currency Committee. Representative Barrett is in receipt of a student resolution from the University of Pennsylvania together with a letter from the president of a student council questioning the Congressman on his failure to take a public stand with regard to the National Student Association - CIA matter. I reviewed the information that has been made public and provided Mr. Glick with copies of the pertinent news reports. As a result of the conversation, it will be Mr. Glick's recommendation to Representative Barrett that he avoid engaging in correspondence with the student body at the University of Pennsylvania for the moment; he will recommend forwarding to the students a copy of the Katzenbach Committee Report as soon as it is released together with comment on the supposed need for legislative or congressional action that may well be indicated by the Report. Mr. Glick was most appreciative of Agency assistance in providing background information and was quite complimentary with regard to his former association with Agency representatives while he was Counsel to the Government Operations Subcommittee on Foreign Operations and Government Information. No further action is required on Representative Barrett's inquiry.

25X1 8. [ ] Met with Mr. Jim Flug, Legislative Assistant to Senator Edward M. Kennedy, and provided him with a suggested response to a constituent letter from [ ]  
25X1 [ ] Massachusetts, relating to Federal funding of American Friends of the Middle East. In the course of the conversation, I learned that Mr. Flug had been in Helsinki at the Youth Congress and in Latin America on student affairs. He has been somewhat taken aback by the recent news reports of Federal funding of the student activities in which he was engaged.

As a separate matter, Mr. Flug requested, if possible, a meeting with Mr. Cord Meyer or one of his senior people in order to outline for Senator Kennedy the problems involved in establishing a quasi-public foundation or such other foundation as may be indicated to carry on the formerly handled activities of the Agency in the support of overseas activities of private groups. It is Senator Kennedy's feeling that the legislative proposals that have been made so far have not been well thought out; and in particular, have not had the benefit of the experience that has been gained in this very difficult field. It was indicated that proposals, such as the inclusion of the DCI on the board of such an organization or assessment of a 15 per cent tax or whatever against private organizations to support such a foundation, are unrealistic. I advised Mr. Flug that I would relay his request and be back in touch with him possibly tomorrow.
